Do you have any Building experience or Builders participating in your campaign?
No participation at this time. My family has always been in the housing trade. My nephew was a contractor/builder in Pahrump, brothers and cousins in California.

What endorsements have you received for your candidacy? I have not pursued endorsements as yet.

1. What are your thoughts concerning mandatory fire sprinklers in all new construction?
I have not been informed on this possibility or need. As of now I don't see or feel they should be a requirement in private homes.

2. What are your main concerns or issues you hope to address during your term?
Reduce government control in the lives of private citizens. To lower taxes and fees for new start up businesses. Require accountability on budget matters of state and county departments.

3. Last session the adoption of AB 148 forced all construction workers to attend a 10 or 30 hour OSHA course, if elected, would you support a repeal of this law? I would have to know more about the requirements and the need for this law, to make a decision on it.

4. What are your thoughts on how Chapter 40 construction defect law can be improved?
Provide me with the law and I could give you an opinion.

5. Do you support new taxes or fees on the development of land?
Not at this time, no new taxes or fees period!

6. Are you in favor of incentivizing or mandating Green Building? Incentivizing, yes, mandating no.
