

Name: Tom Grady

Telephone Number: 775.463.2612

Email address / Website address: grady.tnp@gte.net and www.tomgrady4nevada.com

Current Occupation/Position: Assemblyman, District 38

Candidate for: Assemblyman, District 38

Campaign Manager: self

Political Party Affiliation: Republican

Previous Elected/Appointed Positions:

Assemblyman since 2002, mayor of Yerington for 10 years, and Executive Director of Nevada League of Cities

Do you have any Building experience or Builders participating in your campaign?

Association of Builders and Contractors, Clara Andriola, President

Association of General Contractors, John Madole, Executive Director

Association of General Contractors, Steve Holloway, Executive Director

What endorsements have you received for your candidacy?

I have the endorsements of most of the local officials. I do not seek other endorsements but have received numerous business, chamber of commerces, and individual endorsements.

1. What are your thoughts concerning mandatory fire sprinklers in all new construction?

Businesses should have them but not for homes.

2. What are your main concerns or issues you hope to address during your term?

The budget is the most pressing concern. I serve on the Ways and Means committee. Reapportionment will be an issue for rural Nevada.

3. Last session the adoption of AB 148 forced all construction workers to attend a 10 or 30 hour OSHA course, if elected, would you support a repeal of this law?

I would support a repeal of this law as it was pushed for by Democrats and labor unions for the problems with high-rise cranes in Clark County.

4. What are your thoughts on how Chapter 40 construction defect law can be improved?

We must sit down as we did before and see where we were, where we have advanced, and where we may need to go.

5. Do you support new taxes or fees on the development of land?

More taxes will not promote more growth. Let private industry and business grow without government interference.

6. Are you in favor of incentivizing or mandating Green Building?

Again, like construction defects, we must talk and work things out. Mandates never prove successful. We need business to grow to turn the economy around.
